BACKGROUND AND EXPERIENCE

E-SCHOOL EDUCATIONAL GROUP is an Adult Education Centre and VET provider located in Greece. It is established in September 2003 with a focus on training VET and Adult Learners in skills that will be useful for future jobs. Our facilities sport over 500 square meters in the very center of Karditsa town. Nowadays, aside from the two owners, E-SCHOOL is manned with six permanent managerial staff and over 50 teachers, as the circumstances dictate.

E-SCHOOL is accredited by the Greek National Organization for the Certification of Qualifications and Vocational Guidance – EOPPEP (ID 2000112).

Our commitment is to provide quality education and accreditation on the subjects we deal in and support our learners in developing skills that will ensure their smooth and successful transition into the labor market. The main objectives of our activities were and still are training. However, over the years, the services provided by E-SCHOOL has been extending.

Since 2003, E-SCHOOL provides training and knowledge accreditation in ICT while providing professional seminars on specific topics. It implements training courses for VET and adult learners in the following areas:

- National programs to combat unemployment.
- Adult ICT training: we provide training to VET and adult learners to become certified in basic and/or advanced digital skills
- Adult trainers' seminars: we provide training to teachers to be certified as adult trainers
- Adult training in Web design and development, networking και programming.

In the past 5 years, we have trained over 1000 unemployed individuals via the «Voucher for Entry to the Labor Market» programs, and over 3000 more trainees in our various seminars. These programs, aside from the theoretical Training included career consulting services for the unemployed as well as hands-on training as interns in private sector stakeholders. The career consulting services are performed by permanent experienced personnel of our organization.

Since 2007, we have specialized on training disabled people with the use of computers and other tools, and we have organized training seminars for the disabled on the usage of the new technologies.

Since 2010, we have entered the field of language studies, creating a Centre for Foreign Languages specialized on adult education which leads to official accreditation exams. We have been providing classes for English, Italian & Russian.

Since 2012, we have expanded our cooperation with other educational organizations throughout Greece.

Since 2016, we have successfully organized training courses as a host organization for KA1 Erasmus+ projects for educational organizations in a variety of subjects like Augmented Reality, Game-Based Learning etc.

Since 2018, we have participated in the development and implementation of Erasmus+ KA2 projects, both as a coordinator or a partner.

An important milestone for our company was the development of our own e-learning platform (e-mathima.gr) using the latest technology.

Please briefly present the organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group).

What are the activities and experience of the organisation in the areas relevant for this project?

AREAS OF EXPERTISE

Project Management – Dissemination & Exploitation

E-SCHOOL has participated in a large number of Erasmus+ projects in the last three (3) years, either as a coordinator, as a partner or under consulting role. Through these projects E-SCHOOL's staff has gained a wealth of experience in the area of project management, dissemination and exploitation.

Research, Educational Material Development & Consulting

Within the framework of the projects E-SCHOOL's staff works on research methodologies, conduct research, elaborate reports, design curricula and training materials which often are prepared as an answer to the needs of concrete group of people. Moreover, it has participated, either as partner or as consultant, in a large variety of programmes.

E-learning platforms

E-SCHOOL has developed its own e-learning platform for adult and VET learners who wants to learn anytime, anywhere at own pace. It also integrates e-Learning modules into its training offers. In addition, E-SCHOOL has developed a lot of e-learning platform tailored to the group of recipients under the framework of Erasmus+ programme (e.g. <http://desklms.e-sl.gr/>)

Web and mobile application development

E-SCHOOL has developed its own mobile application to inform the public about its activities. The technical staff has the capability to develop any modern web and/or mobile application.

National project & programmes

- Certified VET provider and Adult Trainers by National Organization for the Certification of Qualifications and Vocational Guidance - EOPPEP
- Provider of training services in National and European programs against unemployment with the system of training vouchers
- Provider of training services in Vocational Training programs for employees in small businesses (SMEs)(LAEK 1-30)
- Certified ICT examination center by UNICERT & GLOBAL CERT
- Certified Training & Exam center for the rational use of agricultural medicines by Greek Ministry of Rural Development and Food
- Certified Training center for the Centre for Security Studies (KEMEA)
- Certified Training center for the education of primary and secondary education teachers in the public sector on the use of new technologies in teaching (second level)

Other seminars & programmes for increasing the skills of the unemployed and employed people

- Training and certification in many subjects in ICT (from basic skills to advanced applications skills)
- Training seminars for unemployed, workers and professionals
- Training and certification in the English, Italian and Russian Language for adults
- Specialized programmes for people with disabilities

What are the skills and expertise of key staff/persons involved in this application?

1) Ms. Maria Malliora

- Diploma in Electrical & Computer Engineer (MEng)
- Med in Adult Education

She is a certified Adult Trainer and serves as a Project Manager in the European Projects Department of E-SCHOOL.

2) Ms. Maria Kotrotsiou

- Diploma in Greek Language
- MA in Foreign Language Teaching (TSGOL)
- MSc in Planning & Development of Tourism and Culture

Support in the European Projects office of E-SCHOOL.

3) Mr. Theodoros Panagos

Graduate in Engineer of Music Technology and Acoustics.

He is responsible for organizing every detail regarding our on-site seminars, as well as coordinating seminars taking place in our partner organizations.

4) Mr. Vasileios Mousafiris

- Diploma in Materials Science Engineering (Meng)

He serves as our Technical Expert, as well as assisting as needed for certain reception tasks. He performs all IT related tasks, including and not limited to:

- Website creation & development
- E-Learning Platform management
- Software & Hardware technical support

5) Mr. Antonios Karalis

- Diploma in Civil Engineering

He is experienced in the fields of youth, as in addition to his everyday tasks he has assisted or wholly managed a number of Voucher projects. Some of the roles he fulfilled are: Work Advisor (consulting youth and employers throughout the internship's duration), Project Support (Managing the proper paperwork), Seminar Support, Work Inspector (Performing checks on the interns and employers) and Training Program Director (Organizing training projects from scratch).

He has likewise performed tasks relevant to the needs of Erasmus+ projects performed by E-SCHOOL as a host organization.
