BACKGROUND AND EXPERIENCE

Please briefly present the organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group).

E-SCHOOL EDUCATIONAL GROUP is an Adult Education Centre and VET provider located in Greece. It is accredited by the Greek Ministry of Education & Qualifications and Vocational Guidance as a lifelong learning centre (ID 2000112).

It was founded in September 2003 with the goal of educating VET and adult learners in job-related skills. Our commitment is to provide quality education and accreditation and support our learners in developing skills that will ensure their smooth and successful transition into the labour market.

Our facilities cover an area of over 500 m2.
Apart from the two owners, E-SCHOOL is currently staffed by nine permanent employees and over 50 teachers, depending on the circumstances.
In the past 10 years, we have trained over 5000 unemployed individuals via the «Voucher for Entry to the Labour Market» programs, and over 3000 more trainees in our various seminars.

E-SCHOOL activities target the following Groups:
1. Disadvantage groups such as NEETs, Ethnic Minorities, Migrants, People with Disabilities, Isolated Elderly People, etc.)
2. Unemployed
3. Employees
4. Entrepreneurs
5. Trainers, teachers, educators
6. Adults and VET learners

The organisation's activities are structured around the following themes:

I. Entrepreneurship and Employability:
We promote employability and entrepreneurship by equipping individuals with updated occupational qualifications and enhancing their employment perspectives. We strive to bridge the gap between education and labour market needs, ensuring equal access and smooth transition into the workforce. Our primary focus is to address skills mismatch, support social cohesion, and foster a thriving and inclusive job market. In this light, we implement the following initiatives:
1. National Programmes through the system of training vouchers for the **unemployed** to acquire and/or update/upgrade professional knowledge and skills to satisfy the modern demands of the labour market.
2. National Vocational Training Programmes for **Employees** in small businesses (SMEs)(LAEK 1-30) aimed at preparing employees to better meet the needs of the companies for which they work and to boost their productivity.
3. Community Service Programmes in Municipalities aimed at providing Training in ICT, Social Economy, and Entrepreneurship. The main target group of this action is unemployed people.

II. Digital Literacy:
We are dedicated to developing individuals' digital skills for life and work. Our training courses focus on promoting digital skills and competences, fostering digital citizenship, encouraging digital thinking, and utilizing open and distance learning

methods. By empowering individuals with these essential digital skills, we enable them to thrive in the digital age and contribute to a digitally inclusive society.

In this light, we implement the following initiatives:

1. ICT Training in basic and/or advanced digital skills to prepare learners for both their personal and professional lives (Certified ICT examination centre by UNICERT & GLOBAL CERT).

2. Distant learning: E-SCHOOL provides courses via the e-learning platform (https://www.e-mathima.gr/) that it developed to satisfy the requirement for distant learning for its self-funded training programmes (IT, English, professional seminars, etc.).

III. Social inclusion:

We promote inclusion, equality, and non-discrimination for disadvantaged and marginalized groups. We strive to create a society where individuals are not excluded based on race, gender identity, age, disability, immigration status, or any other factor. Our organization places a special emphasis on the inclusion and empowerment of people with disabilities. We offer comprehensive training courses and career development programmes to enhance their skills, boost their confidence, and create equal opportunities for their personal and professional growth.

IV. Sustainability:

We promote sustainable development within workplaces. Our primary focus is on addressing critical global challenges such as climate change, sustainable consumption, environmental education, and the creation of sustainable communities. We firmly believe that workplaces play a vital role in driving positive change and contributing to a sustainable future. Through our tailored initiatives, education, and engagement, we empower organizations to integrate sustainability practices into their operations and foster a culture of environmental responsibility.

V. Foreign Languages:

The Centre for Foreign Languages at E-SCHOOL is specialized in adult education and official accreditation exam preparation in foreign languages. Our center offers comprehensive classes in English, Italian, and Russian, catering to the diverse needs of adult learners and vocational education and training (VET) learners. With a strong commitment to promoting best practices in language learning, we prioritize meeting the unique goals and requirements of our adult learners.

VI. Seminars for i) educators to become certified as adult trainers, ii) **permanent teachers** of Primary and Secondary Education on the use of new technologies in teaching (B2-Level ICT teacher training)

Selected experience and projects in the areas relevant for this project are listed below:

Implementation of training programmes
E-SCHOOL provides high-quality education and training services to VET and Adult Learners. Over the years it has been implementing a large number of training programs/seminars at the local/national level aimed at reducing unemployment through the integration and reintegration of individuals in the labour market.

National programmes on unemployment
Since 2011 E-SCHOOL provides training services through the «TRAINING VOUCHER» system supported by the Ministry of Labour, Social Insurance, and Social Solidarity, which aims to achieve a structured path for the entry of unemployed into the labour market (https://voucher.gov.gr/en). In the past 8 years, E-SCHOOL has trained over 1000 unemployed individuals through this programme.

National seminars for Educators
E-SCHOOL acts as a certified training centre for professionals to become certified as adult trainers. Moreover, it is a certified training centre for the education of Primary and Secondary Education permanent teachers on the use of new technologies in teaching (B2-Level ICT teacher training).

National seminars for farmers
E-SCHOOL provides training and is also a certified Training & Exam centre for the rational use of agricultural medicines by the Greek Ministry of Rural Development and Food.

Career consulting services
E-SCHOOL provides career consulting services tailored specifically to each individual. These services are performed by permanent experienced personnel of our organization, in which we help individuals to better understand their knowledge, skills, and aspiration and facilitate their easier labour market integration.

Language Learning
The Centre of Foreign Languages of E-SCHOOL has experience in providing training in foreign language teaching to meet the needs of adult and VET learners while promoting best practices in language learning.

Project Management – Dissemination & Exploitation
E-SCHOOL has participated in a large number of Erasmus+ projects in the last five (5) years through which its staff has gained a wealth of experience in the area of project management, dissemination, and exploitation.

Research, Educational Material Development & Consulting
Within the framework of the projects, E-SCHOOL's staff works on research methodologies, conducts research, elaborates reports, designs curricula and training materials which often are prepared as an answer to the needs of a concrete group of people. Moreover, it has participated, either as a partner or a consultant, in a large variety of programmes.

Website Development
We specialize in offering comprehensive website development services. Each website has unique needs and objectives, and we are dedicated to delivering

customized solutions that align with our clients' specific requirements. Our team of expert developers combines technical expertise, creativity, and a client-centric approach to create websites that are not only visually appealing but also highly functional.

E-learning Platform and Content Development
We specialize in designing and developing customized e-learning platforms that cater to the unique needs of our clients. We prioritize user-centric design to ensure that learners have a positive and engaging experience on our e-learning platforms. Our team has the capacity to develop learning materials, such as presentations, documents as well as engaging multimedia content, including videos, interactive quizzes, assessments, etc.

What are the skills and expertise of key staff/persons involved in this application?

1) Ms Maria Malliora
Maria holds a Degree in Electrical and Computer Engineering (MEng) from the Aristotle University of Thessaloniki, Greece, and also a Med in Adult Education. She is an active teacher, adult and VET trainer. Her field of expertise is educational research, design, implementation, and evaluation of educational programmes. She has core expertise in ICT-based learning, computational thinking, robotics, coding, and STEAM curriculum development. She has also participated in many EU-funded projects.

2) Ms Maria Kotrotsiou
Maria holds a Degree in the Greek Language. She got a master's degree in Foreign Language Teaching (TSGOL) and a second master's degree in Planning & Development of Tourism and Culture. She is also an active adult and VET trainer. She has extensive experience in designing and developing innovative curriculums and interdisciplinary programs for education purposes. She has experience in research, education, inclusion, literacies, innovation, and project management. She has also participated in many EU-funded projects.

3) Mr Antonios Karalis
Antonios holds a degree in Civil Engineering. He is the Head of Education Unit at E-SCHOOL. He is the coordinator of all Erasmus+ KA1 (staff mobility) training courses. He has more than 10 years of experience in Education, learning design, and training of unemployed, employees, teachers, and professionals. He has extensive expertise in managing National Programmes aimed at both the unemployed and industry employees and he has managed many Voucher projects.

4) Mr Vasileios Mousafiris
He is a university graduate of the Department of Materials Science and Engineering (Meng) of the University of Ioannina. He is an ICT expert, web designer/developer, and graphic designer who has worked on many projects over the years, materialising actions related to the projects' technical and informatics aspects. He has extensive experience in the management and implementation of a wide range of projects.

5) Mr Theodoros Panagos
He is a university graduate of the Department of Music Technology and Acoustics of the Hellenic Mediterranean University. He is an Audio producer and engineer. He has participated in the development and production of audio and/or video projects.

He is an ICT expert, web designer/developer, and graphic designer. He has a wealth of experience in designing and creating websites and platforms, as well as in planning advertising campaigns and social media marketing strategies.

6) Ms Tsafitsa Konstantina

She is a University graduate of the department of German Language and Literature at the Aristotle University of Thessaloniki (AUTH) and has a Master's in Intercultural Education and Diversity. She worked as a classroom teacher at private schools, where she taught students ranging in age from 6 to adults. She also works in the field of non-formal education. Her interests are focused on the purposes of language teaching, Intercultural Education, and Diversity.

7) Mr Adamopoulos Konstantinos

He is a University graduate of the University of Macedonia (UOM) in the field of International and European Studies. He has also a Master's from the Aristotle University of Thessaloniki (AUTH) in Communication. He has extensive knowledge of advertising campaigns and social media marketing strategies.
