

Erasmus+

ICT IN CLASSROOM

The goal of this course is to introduce teachers to concepts and tools that focus on the pedagogical use of digital devices. They will receive training on how to use different tools in their digital classrooms in order to engage their students in their own learning. They will also receive training in learning methods in the classroom as well as they will exchange ideas and develop links with teachers from other European countries. After the end of this course, they will have a better understanding of the concept and potential benefits of incorporating ICT in the classroom and they will have improved the skills and competences that are required to convey that knowledge to their students.

TARGET-GROUPS

- ✓ Educators who would like to incorporate digital technology into their lesson
- ✓ School principals & directors (primary & secondary schools)
- ✓ Teachers (primary & secondary schools)
- ✓ Teachers working in Vocational Training Schools or Institutes
- ✓ Educational Advisors

MAIN AIM

To improve educators' scientific and pedagogical background in order to be able to successfully integrate technology into the lessons/sessions.

WHY TRAIN WITH US

We are an innovative, flexible and creative training center with the passion to help our learners reach the best of their potential. We have a proven track of success in all kinds of seminars and trainings.

BENEFITS FOR THE PARTICIPANTS: SKILLS AND COMPETENCES ACHIEVED

By the end of the course, participants will be able to:

- ✓ organize and manage digital classroom
- ✓ use modern ways of teaching through apps which facilitate and support learning
- ✓ use mobile devices as teaching tools to enhance learning experiences
- ✓ create a more productive and effective learning environment
- ✓ create interactive materials for encouraging and enhancing learning
- ✓ develop skills and knowledge for safe and responsible use of digital technology for learning
- ✓ develop a culture of digital technology use
- ✓ support their learners to shape the identity of e-citizenship

DETAILED PROGRAMME (DAY BY DAY)

Sunday Welcome

- Walking City Tour
- Welcoming dinner

Monday Introduction

Morning:

- Ice-breaking activities - Get to know each other
- Key Competences for 21st Century Citizens

Afternoon:

- Introduction to the Course
- Sharing personal experiences on using ICT tools and apps in classroom

Tuesday

Morning:

- ICT Tools in Education
- Case studies from the use of ICT Tools in education

Afternoon:

- How to create a paperless classroom
- Using Google Drive in classroom

Wednesday

Morning:

- Preparing digital learning material (e-textbooks, video etc.)

Afternoon:

- Giving Assignments online
- Evaluating digital Assignments

Thursday

Morning:

- Using educational apps in classroom
- Creating a 'learning culture' online
- Behaviour in the online class

Afternoon:

- How to engage students in online teaching without creating an addiction
- How to recognize technology addiction in students during the teaching process
- How to deal with it

Friday

Morning:

- Overall Summary
- Group Project on creating digital learning material

Afternoon:

- Presentation of Group Projects
- Feedback & Assessment of the course

Closing ceremony

- Handing over certificates
- Farewell dinner

Thank You

We, at E-SCHOOL, firmly believe in strong cooperation and the establishment of long term relationships in order to create a network, share interests and ideas and develop projects for the different calls joining our experience.
