Erasmus+

PROJECT-BASED LEARNING

The goal of this course is to introduce the concept of project-based learning to teachers and trainers of school and adult education level. Educators will receive training on fundamentals, benefits, challenges and applications of project-based learning in the classroom and will be able to understand the point of view of teachers and learners when applying the method. They will also receive training on how to design and implement the method and create lessons based on Project-based learning. After the end of this course, they will have a better understanding of the concept, benefits and implementation techniques of Project-Based learning and they will have improved the skills and competences that are required to apply that method in their learning environment.

TARGET-GROUPS

This course is targeted at educators, teachers and headmasters that want to incorporate different learning methods and tools in their learning environment to increase student engagement and understanding in the learning process.

MAIN AIM

To improve educators' scientific and pedagogical background through the use of project-based learning method.

WHY TRAIN WITH US

We are an innovative, flexible and creative training center with the passion to help out learners reach the best of their potential. We have a proven track of success in all kinds of seminars and trainings.

BENEFITS FOR THE PARTICIPANTS: SKILLS AND COMPETENCES ACHIEVED

By the end of the course, participants will be able to:

- ✓ understand the concept of PBL
- ✓ use PBL in their classroom
- ✓ improve their skills and knowledge
- ✓ be informed about new learning techniques and methods
