Second TPM

Karditsa, Greece

The second transnational project meeting of our Elimination of Digital Inequality project was held on 14 - 16 December, hosted by the Greek partner in Karditsa Greece. At the meeting, the first year of the project was evaluated from all aspects.

The game, which is now ready, was played for the first time in an international environment. At the meeting, the TPMs to be made after that were clarified and decided. Among the issues that were decided were the dissemination activities, administrative operations. Opinions were exchanged on the development of the game, which is the output of the project.
